

AILSA WIGGANS

I moved to Longparish 7 years ago and have regularly volunteered on several village projects including clean up days, support during covid and putting up the marquees for the fete every year.

5 years ago, I joined The Plough Ahead team as they looked at the feasibility of buying The Plough and opening it as a community pub. I was coopted onto management committee and then voted in by members nearly 2 years ago. I provide HR advice to the management committee and general manager and currently spend over 20hrs a week on Plough HR matters, as a volunteer. In addition, I've spent a lot of time doing up the inside of the pub, fencing, gardening, and volunteering as a kitchen porter when needed.

I work full time as an HR consultant and have run my own business for over 20 years, working with a variety of organisations, both small and large. Prior to that I was employed in a number of HR management roles in well-known organisations. I am a Chartered Fellow of the CIPD with over 30 years of HR experience.
